ABSTRACTS OF INSTRUCTIONAL MATERIALS IN VOCATIONAL AND TECHNICAL EDUCATION, WINTER 1967.

OHIO STATE UNIV., COLUMBUS, CENTER FOR VOC. EDUC.

PUB DATE

67

EDRS PRICE MF-\$0.75 HC-\$7.88 195P.

DESCRIPTORS- *ANNOTATED BIBLIOGRAPHIES, *INSTRUCTIONAL MATERIALS, *VOCATIONAL EDUCATION, *TECHNICAL EDUCATION, BUSINESS EDUCATION, AGRICULTURAL EDUCATION, DISTRIBUTIVE EDUCATION, HEALTH OCCUPATIONS EDUCATION, HOME ECONOMICS EDUCATION, INDUSTRIAL ARTS, TRADE AND INDUSTRIAL EDUCATION, INDEXES (LOCATERS), CLEARINGHOUSES,

THIS QUARTERLY PUBLICATION ANNOUNCES THE AVAILABILITY OF INSTRUCTIONAL MATERIALS ACQUIRED AND PROCESSED BY THE EDUCATIONAL RESOURCES INFORMATION CENTER (ERIC) CLEARINGHOUSE ON VOCATIONAL AND TECHNICAL EDUCATION. IT SHOULD BE OF PARTICULAR INTEREST TO TEACHERS, CURRICULUM SPECIALISTS, SUPERVISORS, AND ADMINISTRATORS INVOLVED IN CURRICULUM DEVELOPMENT OR THE USE OF INSTRUCTIONAL MATERIALS IN THE TEACHING-LEARNING SETTING. EACH ABSTRACT, A CONDENSATION OF THE REPORT IN ABOUT 200 WORDS, USUALLY INCLUDES THE MEANS USED TO DEVELOP THE MATERIAL, THE SETTING FOR USE OF THE MATERIAL, AND SOURCE OF AVAILABLE COPIES. ABSTRACTS ARE INCLUDED UNDER THE FOLLOWING SECTIONS -- AGRICULTURAL, BUSINESS AND OFFICE, DISTRIBUTIVE, HEALTH OCCUPATIONS, HOME ECONOMICS, INDUSTRIAL ARTS, TRADE AND INDUSTRIAL, GENERAL VOCATIONAL AND TECHNICAL EDUCATION, AND OTHER RESOURCES. AN AUTHOR INDEX, DOCUMENT NUMBER INDEX, AND SUBJECT INDEXES ARE PROVIDED. OF THE 126 DCCUMENTS LISTED, 103 ARE AVAILABLE AS A SEPARATE MICROFICHE SET FROM THE ERIC DOCUMENT REPRODUCTION SERVICE (VT DD4 453). OTHERS ARE AVAILABLE FROM THE SOURCE IDENTIFIED IN THE ABSTRACT. THIS DOCUMENT IS AVAILABLE FOR \$2.75 FROM THE CENTER .)R VOCATIONAL AND TECHNICAL EDUCATION, THE OHIO STATE UNIVERSITY, 980 KINNEAR ROAD, COLUMBUS, OHIO 43212. THE ANNUAL SUBSCRIPTION RATE IS \$9.00. (EL)

ABSTRACTS OF INSTRUCTIONAL MATERIALS IN VOCATIONAL AND TECHNICAL EDUCATION WINTER 1967

ERIC CLEARINGHOUSE
THE CENTER FOR VOCATIONAL
AND TECHNICAL EDUCATION
THE OHIO STATE UNIVERSITY
COLUMBUS, OHIO

VTC04440

The Center for Vocational and Technical Education has been established as an independent unit on The Ohio State University campus with a grant from the Division of Adult and Vocational Research, U. S. Office of Education. It serves a catalytic role in establishing a consortium to focus on relevant problems in vocational and technical education. The Center is comprehensive in its commitment and responsibility, multidisciplinary in its approach, and interinstitutional in its program.

The major objectives of The Center follow:

- 1. To provide continuing reappraisal of the role and function of vocational and technical education in our democratic society;
- 2. To stimulate and strengthen state, regional, and national programs of applied research and development directed toward the solution of pressing problems in vocational and technical education;
- 3. To encourage the development of research to improve vocational and technical education in institutions of higher education and other appropriate settings;
- 4. To conduct research studies directed toward the development of new knowledge and new applications of existing knowledge in vocational and technical education;
- 5. To upgrade vocational education leadership (state supervisors, teacher educators, research specialists, and others) through an advanced study and in-service education program;
- 6. TO PROVIDE A NATIONAL INFORMATION RETRIEVAL, STORAGE, AND DISSEMINATION SYSTEM FOR VOCATIONAL AND TECHNICAL EDUCATION LINKED WITH THE EDUCATIONAL RESEARCH INFORMATION CENTER LOCATED IN THE U. S. OFFICE OF EDUCATION:
- 7. To provide educational opportunities for individuals contemplating foreign assignments and for leaders from other countries responsible for leadership in vocational and technical education.

PREFACE

Abstracts of Instructional Materials in Vocational and Technical Education (AIM) and the companion publication Abstracts of Research and Related Materials in Vocational and Technical Education (ARM) announce the availability of documents acquired and processed by the ERIC Clearinghouse on Vocational and Technical Education. AIM includes abstracts of materials typically designed for teacher use or student use in the classroom, and annotations of bibliographies or lists of instructional materials. It will be of particular interest to teachers, curriculum specialists, supervisors and administrators involved in the use of instructional materials in the teaching-learning setting, or in curriculum development. ARM incorporates abstracts of research and other materials which are useful to a wide audience of users such as researchers, supervisors, teacher educators, education specialists, administrators, teachers and others who have an interest in vocational and technical education. These publications prepared by the ERIC Clearinghouse on Vocational and Technical Education are published quarterly beginning with Fall 1967 issues.

The ERIC Clearinghouse on Vocational and Technical Education is a division of the Center for Research and Leadership Development in Vocational and Technical Education located at The Ohio State University and is one of the clearinghouses of the Education Resources Information Center (ERIC-USOE). With the growth of vocational education programs, there is an increasing need for accessible information that can be used in developing logical chains of reasoning for research activities, for improving school practices and shortening the theory-practice gap. This Clearinghouse is striving to provide a useful and vital function in dissemination of information on vocational and technical education through these publications.

Since this Clearinghouse is a component of a larger information system, ERIC, it is logical that certain similarities among publications exist. In this regard the format of AIM and ARM is similar to that of Research in Education, the primary publication of the Educational Resources Information Center (ERIC-USOE). The abstracts of materials reported in AIM relate specifically to the education field of vocational and technical education and constitute a segment of ERIC, the national information system for American Education.

In addition to the quarterly publications, Abstracts of Instructional Materials in Vocational and Technical Education (AIM) and

Research in Education is published 12 times a year. Subscription: Domestic \$11.00 a year; foreign, \$2.75 additional. Single copy: Domestic, \$1.00. Send check or money order (no stamps) to the Superintendent of Documents, U.S. Government Printing Office, Washington, D. C. 20402.

Abstracts of Research and Related Materials in Vocational and Technical Education (ARM), other publications will be issued from time to time. These will typically concern themselves with reviewing and synthesizing information in specific areas of vocational and technical education, e.g. Review and Synthesis of Research in Technical Education; Agricultural Education; Home Economics, etc. Other reviews may focus on specific problems.

We are indebted to our colleagues within the profession for their cooperation in forwarding materials to the clearinghouse and for their suggestions and comments which have materially assisted in the development of this program. We anticipate further refinement and improved procedures with the continued assistance of our advisory committee.

Robert E. Taylor Director

INTRODUCTION

Organization of ABSTRACTS OF INSTRUCTIONAL MATERIALS IN VOCATIONAL AND TECHNICAL EDUCATION

Abstracts of Instructional Materials in Vocational and Technical Education relies upon two basic formats -- resumes and indexes -- to serve the browser and those seeking specific information. The resumes are organized according to vocational service groupings in the first section of the document. Under each grouping, the resumes are arranged by Vocational Technical (VT) number which is an identification number assigned to reports as they are processed. Resumes contain an abstract which indicates the contents of a document in two hundred words or less. Additional components of a resume are explained in a diagram on page ix immediately preceding the resume section.

Several indexes are located after the resume section to provide specific approaches to documents reported in the resume section. The indexes, which allow one to quickly find pertinent information, are arranged according to the groupings of:

personal and institutional authors
document accession numbers
conversion of document numbers (VT to ED, ED to VT)
subjects.

All of the indexes refer to page numbers in this publication to enable the reader to locate quickly any resume of interest.

Availability of Materials Reported

Part of the ERIC program is to make known the availability of the full text of materials cited. Some of the materials are available through the ERIC Document Reproduction Service (EDRS) and some are available through other sources (e.g. Government Printing Office). Guidelines to availability are shown on the next page.

Arailability Key

Ava	ila	abi	1;	tv
		~~	-	• • • •

VT Number supplied and ED Number supplied.

ERIC Document Reproduction Service

or

Source shown at end of abstract for items not available through EDRS.

VT Number supplied and ED indicated without a number.

Unavailable from EDRS (at time of printing) until an ED number is assigned. Facsimile copy available at cost from ERIC Clearinghouse for Vocational and Technical Education until ED number is assigned. Assignments of ED numbers are listed in each issue of this publication.

Source shown at end of abstract for items not to be available through EDRS.

VT Number supplied. only.

Available on microfiche or facsimile copy at cost from ERIC Clearinghouse for Vocational and Technical Education

or

Source shown at end of abstract.

It is important to direct inquiries to the proper source and to use full citation (author, title, publisher, date, pagination, report number, catalog or order number) in requesting materials. The exception to this rule is that ERIC Document (ED) numbers only are to be used to order items from EDRS, and Vocational Technical (VT) numbers only are to be used to order items from ERIC Clearinghouse for Vocational and Technical Education.

Text of materials obtained from EDRS, or the ERIC Clearinghouse for Vocational and Technical Education is reproduced on facsimile and/or microfiche copy. Microfiche is a 4-inch by 6-inch film card that contains up to 70 pages of the original text. The size of a hardcopy reproduction will vary depending on whether it is obtained from EDRS or from the Clearinghouse on Vocational and Technical Education. The price of microfiche is considerably less than facsimile copy. Persons interested in obtaining either microfiche or hard copy reproductions of EDRS designated documents which are available through EDRS should obtain an order form from:

ERIC Document Reproduction Service Bell and Howell Company 1700 Shaw Avenue Cleveland, Ohio 44112

Prices of items from the ERIC Clearinghouse for Vocational and Technical Education will not be identical to the prices given for EDRS, due to different processess used in duplication of microfiche or facsimile copies. Order blanks may be obtained from:

ERIC Clearinghouse
The Center for Vocational and Technical Education 780 Kinnear Road
Columbus, Ohio 43212

A number of instructional laboratories and agencies have printed copies of materials for sale. This kind or availability is indicated at the end of an abstract. A cumulative list of these sources with names and addresses follows the index section.

Availability of ABSTRACTS OF INSTRUCTIONAL MATERIALS

All issues of this publication (AIM) will be reported in Research in Education and will be available on microfiche or facsimile copy through ERIC Document Reproduction Service. A short time lag will occur between the time this document is printed and the time it is available through EDRS. Entents of this publication may be reprinted freely without requesting permission, giving appropriate credit to the Clearinghouse. A limited number of subscriptions at cost will be accepted. For further information contact:

ERIC Clearinghouse
The Center for Vocational and Technical Education
980 Kinnear Road
Columbus, Ohio 43212

Scope of The Clearinghouse

The ERIC Clearinghouse on Vocational and Technical Education is responsible for research reports and other documents related to the general field of vocational and technical education. cluded are reports on the specific fields of agricultural education, business and office occupations education, distributive education, health occupations education, home economics education, technical education, trade and industrial education, training in new subprofessional fields, and the related fields of industrial arts education, manpower economics, occupational psychology, and occupational sociology. Specifically included are subject categories such as administration, curriculum development, employment opportunities, evaluation, facilities and equipment, historical studies, individuals with special needs, innovative and experimental programs, instructional materials and devices, learning processes, manpower economics, occupations (jobs), philosophy and objectives, research methods, student personnel garvices, students (characteristics), teachers, and teacher education and teaching methods when related specifically to vocational and technical education.

Acquisitions

The adequacy of information in this publication, as well as other services of this clearinghouse, is directly related to the extensiveness of the information acquired and processed into the system. This Clearinghouse has assumed the initiative in obtaining as much of the available information as possible. However, it is impossible for any organization to achieve complete and comprehensive covers: of a field as vast as vocational education without the cooperation and assistance of the profession. The growth and ultimate effectiveness of the system require supplemental efforts of its users. Any person in the vocational or technical field is invited to forward to the Clearinghouse two copies of items relating to vocational-technical education for possible inclusion in the system. Questions relating to this endeavor should be directed to the Acquisitions Specialist at The Center.

SAMPLE RESUME

Accession Number -an identification number sequentially assigned to reports as they are processed.

As a result of the experiences of and study by the staff of three Michigan public schools participating in a research project between 1963 and 1965, this manual was prepared for use by geographical areas, administrators, teachers, and citizens committees in evaluating and planning local vocational education programs. It explains the role of the local director, consultants, staff, citizens' committees, and the procedures that can be used in analyzing curricular offerings, studying needs with reference to existing programs, and using the placement services and followup of graduates and former students in the evaluation process. The appendixes list sample forms used by the three schools to obtain information for their evaluations. (PA)

subject terms assigned by an indexer to characterize the contents of a report. Only the major terms, those preceded by an asterisk, are printed in the index.

Abstractor's Initials

Abstract--a condensation of the report in about 200 words. When applicable, it includes the purpose, procedure, resulis, and conclusions of the research activity.

*COURSES, *VOCATIONAL AGRICULTURE, *ORNAMENTAL HORTICULTURE OCCUPATIONS, HIGH SCHOOLS, BIBLIOGRAPHIES, EMPLOYMENT OPPORTUNITIES, *ORNAMENTAL HORTICULTURE, *PROGRAM DEVELOPMENT,

The publication of this and other documents in the series on off-farm agricultural occupations was the result of an effort to assist state and local leaders in developing training programs. Prime consideration was given to data from several state studies and development was by a national task force. The purpose of the course is to assist high school students to develop competence for occupational entry as service workers in nurseries, garden centers, greenhouses, golf courses, and ground maintenance departments. It is uniquely appropriate for disadvantaged students interested in horticulture. It describes the occupations, persons to be served, teaching modules included, nature of the course, and the personnel and setting involved in course development. Teaching modules, published separately, include (1) occupational opportunity, (2) plant identification, (3) propagation, (4) growing, (5) soils media, (6) plant pests, (7) plant growing structures, (8) salesmanship, (9) lawns and turf, (10) small power equipment, (11) ornamental plant materials and landscape structures, and (12) human relations. Suggested time allotments, supporting education, methods for introducing the course, use of course materials, evaluative criteria, instructional materials, and references are included. This document is available for a limited period as part of a set (VT 000 619 - 000 631) for \$7.25 from The Center for Vocational and Technical Education, The Ohio State University, 980 Kinnear Road, Columbus, Ohio 43212. *TEACHING GUIDES, UNITS OF STUDY (SUBJECT FIELDS), *VOCATIONAL AGRICULTURE, *ORNAMENTAL HORTICULTURE OCCUPATIONS, *EMPLOYMENT OPPORTUNITIES, *OCCUPATIONAL CHOICE, HIGH SCHOOLS, BIBLIOGRAPHIES,

The major objective of this module is to develop student understanding of occupational opportunities available in ornamental horticulture. It is one of a series designed to prepare high school students for horticulture service occupations. It was developed by a national task force on the basis of research from state studies. Suggestions for introducing the module are given. Subject matter areas are ornamental horticulture enterprise and job identification, local ornamental horticulture businesses, and available national employment opportunities. Suggested subject matter content, teaching-learning activities, instructional materials and references, and means for evaluation are included. Suggested time allotment is 11 hours of class instruction and 4 hours of laboratory experience. A teacher with a background in ornamental horticulture may use this material to plan for less able high school students with an occupational goal in ornamental horticulture service occupations. This document is available for a limited period as part of a set (VT 000 619 - 000 631) for \$7.25 from The Center for Vocational and Technical Education, The Ohio State University, 980 Kinnear Road, Columbus, Ohio 43212. Identifying Horticultural Plants. (Horticulture - Service Occupations, Module no. 2).

Ohio State Univ, Columbus. Center for Vocat and Tech Educ Aug65

EDRS Price MF-\$0.09 HC-\$1.44 36p.

*TEACHING GUIDES, UNITS OF STUDY (SUBJECT FIELDS), *VOCATIONAL AGRICULTURE, *ORNAMENTAL HORTICULTURE OCCUPATIONS, VOCABULARY, *PLANT IDENTIFICATION, *HORTICULTURE, HIGH SCHOOLS, BIBLIOGRAPHIES,

The major objective of this guide is to develop the ability to identify common plants that are important to the ornamental horticulturist. It was developed by a national task force on the basis of data from a number of state studies. It is one of a series designed to prepare high school students for horticulture-service occupations. Suggestions for introducing the module are given. Subject matter areas are (1) vocabulary, (2) scientific nomenclature, and (3) plant identification. Each area includes suggested subject matter content, teaching-learning activities, and instructional materials and references. Several suggestions for evaluating educational outcomes are also given. The module is scheduled for 85 hours of class instruction. A teacher with a background in horticulture may use it to plan a unit for less able high school students with an occupational goal in ornamental horticulture. This document is available for a limited period as part of a set (VT 000 619 - 000 631) for \$7.25 from The Center for Vocational and Technical Education, The Ohio State University, 980 Kinnear Road, Columbus, Ohio 43212. *TEACHING GUIDES, UNITS OF STUDY (SUBJECT FIELDS), *VOCATIONAL AGRICULTURE, *ORNAMENTAL HORTICULTURE OCCUPATIONS, *PLANT PROPAGATION, *HORTICULTURE, HIGH SCHOOLS, BIBLIOGRAPHIES,

One of a series designed to prepare high school students for horticulture service occupations, this quide has as its major objective to develop an understanding of various plant propagation methods and an ability to carry out certain propagation procedures. It was developed by a national task force on the basis of data from state studies. Subject matter areas are (1) producing plants from seeds, (2) producing plants from cuttings, (3) producing plants from layerage, (4) propagating by budding and grafting methods, and (5) building propagation containers and equipment. Suggestions for introduction of the module, specific unit objectives, subject matter content, teaching-learning activities, instructional materials and references, and evaluative criteria are included. The module is scheduled for 30 hours of class instruction, 70 hours of laboratory experience, and 50 hours of occupational experience. Teachers with a background in horticulture may use it as a guide for developing a unit for less able high school students with an occupational goal in ornamental horticulture. This document is available for a limited period as part of a set (VT 000 619 - 000 631) for \$7.25 from The Center for Vocational and Technical Education, The Ohio State University, 980 Kinnear Road, Columbus, Ohio 43212. One of a series designed to help teachers prepare post-secondary students for employment in horticulture occupations, this module aims to develop student ability to meet customers, present supplies and services to customers, overcome resistance, and close a sale. It was designed by a national task force on the basis of research in state studies. Suggestions are included for introducing the module. For each competency, subject matter content, teaching-learning activities, references, instructional materials, and occupational experiences are suggested. The time allotment suggested is 30 hours of class instruction and 36 hours of occupational experience. Teachers should have experience with horticulture, and students should have an occupational goal in horticulture. Suggestions are included for evaluating outcomes. The sources of supplemental materials are listed. This document is available for a limited period as part of a set (VT 000 619 - 000 631) for \$7.25 from The Center for Vocational and Technical Education, The Ohio State University, 980 Kinnear Road, Columbus, Ohio 43212. One of a series designed to prepare high school students for horticulture service occupations, this module has as its major objective to develop a proficiency in the operation, maintenance, and repair of small power equipment used in horticultural enterprises. It was developed by a national task force on the basis of data from state studies. Subject matter areas are (1) small gasoline engine adjustment, maintenance, and repair, (2) small p wer equipment maintenance, (3) lawn mower operation, (4) rotary tiller operation, (5) soil shredder operation, (6) aerifier operation, (7) sod cutter operation, (8) garden tractor operation, (9) pesticide applicator operation, and (10) chain saw operation. Suggestions are included for introduction of the module, specific unit objectives, subject matter content, teaching-learning activities, instructional materials and references, and criteria for student evaluation. The module is scheduled for 25 hours of class instruction, 75 hours of laboratory experience, and 50 hours of occupational experience. Teachers with a background in horticulture may use this guide to prepare units for less able high school students with occupational goals in ornamental horticulture. This document is available for a limited period as part of a set (VT 000 619 - 000 631) for \$7.25 from The Center for Vocational and Technical Education, The Ohio State University, 980 Kinnear Road, Columbus, Ohio 43212. An Aid to the Identification of 60 Ohio Plants.

Ohio State Univ., Columbus. Dept. of Agricultural Educ.

Ohio State Dept of Educ., Columbus. Vocat. Agr. Service 66

DOCUMENT NOT AVAILABLE FROM EDRS 29p.

*REFERENCE BOOKS, *VOCATIONAL AGRICULTURE, *FARM OCCUPATIONS, FORAGE CROPS, WEEDS, *PLANT IDENTIFICATION, GRADE 9, GRADE 10, UNIT OF STUDY (SUBJECT FIELDS),

Ninth and tenth grade vocational agriculture students who are interested in farming or agronomy in the Midwestern United States can use this in learning to identify 60 common Ohio plants. It was developed through modification of a teacher's initial work after student use and consideration by teachers and agronomists. The varieties of legumes, weeds, and grasses are each described by common name, botanical name, distinguishing features, and a sketch of the plant. It is intended for about 10 hours of study. A glossary of plant parts is included. A study guide, "Fundamentals of Plant Identification," and a series of 79 color slides, "Some Common Crop and Weed Plants," are necessary for efficient utilization of this material. These are available for \$12.00 from Ohio Vocational Agriculture, Instructional Materials Service, The Ohio State University, 2120 Fyffe Road, Columbus, Ohio 43210. This document is available for 75 cents from the same source. (JM)

Livestock Marketing.

Ohio State Univ., Columbus. Dept. of Agricultural Educ.

Ohio State Dept. of Educ., Columbus. Vocat. Agr. Service

DOCUMENT NOT AVAILABLE FROM EDRS 124p.

*VOCATIONAL AGRICULTURE, *CURRICULUM GUIDES, *LIVESTOCK, *HIGH SCHOOLS, *MARKETING,

The purpose of this curriculum guide is to provide the teacher with assistance in planning lessons for a 30-hour livestock marketing unit for high school production agriculture classes. The material was developed by a vocational agriculture teacher after trial in classes and consideration by livestock industry representatives and extension specialists. The objectives of the unit are to develop -- (1) understanding of marketing services, (2) realization of the need for marketing grades and standards, (3) knowledge of price-influencing factors, (4) familiarization with types of marketing systems, and (5) knowledge of loss-reducing livestock handling practices. Lesson materials include introduction, beef cattle, swine, sheep, livestock losses, and market reports divisions. Standards, seasonal price patterns, and futures trading are covered for each class of livestock. Supplemental materials, presented in four colors, include reference assignments and marketing problems. A list of teaching aids, a glossary, and a bibliography are included. A packet of related pamphlets for student use is available for \$1.25. This document is available for \$2.40 from Ohio Vocational Agriculture, Instructional Materials Service, The Ohio State University, 2120 Fyffe Road, Columbus, Ohio 43210. (JM)

Know Your Land. (44 Color Slides and Script).

Huison, David

Ohio State Univ., Columbus. Dept. of Agricultural Educ.

67

DOCUMENT NOT AVAILABLE FROM EDRS 11p.

*FILMSTRIPS, *VOCATIONAL AGRICUTURAL, *LAND USE, SOIL CONSERVATION, LAND JUDGING, HIGH SCHOOLS,

The purpose of this series of 44 color slides is to help vocational agriculture students understand land judging and land use. It was developed by state-level Soil Conservation Service and agricultural education personnel after conferences with other educators and soils specialists. Concepts covered in the slide series are -- (1) soil mapping, (2) land judging, (3) land management problems, (4) land capability classes, (5) conservation practices, (6) land judging factors, (7) land judging techniques, and (8) land use. The series is appropriate for use in high school production agriculture classes for students preparing for occupations in farming or soil conservation. Adaptable to areas throughout the United States, the series should be used with the "Land and Soil Conservation Judging Score Card," available from the Ohio Department of Natural Resources. Suggested time allotment is 4 hours. The slide series is available for \$6.75 from Ohio Vocational Agriculture, Instructional Materials Service, The Ohio State University, 2120 Fyffe Road, Columbus, Ohio 43210. (JM)

Soils Unit, The Chemical Properties of Soil.

Vice, Billy J.

Kentucky Univ., Lexington. Instr. Materials Lab. HS-3

0ct66

DOCUMENT NOT AVAILABLE FROM EDRS 22p.

*VOCATIONAL AGRICULTURE, *CURRICULUM GUIDES, *HIGH SCHOOLS, *SOIL SCIENCE, UNITS OF STUDY (SUBJECT FIELDS),

Developed by an agricultural specialist, this unit on the chemical properties of soil for high school vocational agriculture classes has been used by Kentucky vocational agriculture teachers and revised. The objectives of its four components are to develop competency in -- (1) understanding the function of essential chemical elements in plant growth, (2) understanding the elementary chemistry necessary for effective use of fertilizers and lime for high yield, (3) using fertilizers economically, and (4) understanding the chemical principles involved in using lime to correct soil acidity. The knowledge and skills to be developed, teaching-learning activities, references, instructional materials, and evaluation methods are suggested. A qualified teacher should be able to use the unit to plan 12 to 15 class periods for third-year students. (JM)

Maize Dwarf Mosaic. (24 Color Slides and Script).

Guide for Course of Study for Farmer General.

McDonough, Frances S.

Tennessee State Dept. of Education, Nashville

67

MF AVAILABLE BY SUBSCRIPTION FROM VT ERIC 152p.

*CURRICULUM GUIDES, *WORKBOOKS, AGRICULTURAL EDUCATION, *FARMERS, *AGRICULTURAL PRODUCTION, POST SECONDARY EDUCATION, BIBLIOGRAPHIES, GLOSSARIES, *MDTA PROGRAMS.

A training plan for upgrading farm owners with substandard income is outlined in this Manpower Development and Training Act (MDTA) study guide. It was prepared for instructor use by a supervisor of curriculum development and MDTA instructors, reviewed by MDTA and agricultural education personnel, and tested on small groups. Objectives of the program include the development of skills, knowledge, interest, understanding, and attitudes needed for efficient farm management, safety, and factors affecting farming. Units are -- (1) Project Orientation and Farm Safety, (2) Records, (3) Soils, (4) Crop Production, (5) Livestock Production, (6) Planning the Farm Program, (7) Farm Business, and (8) The Farmer and the Community. Lists of suggested references and instructional aids, a glossary, and a farm management workbook are included. Teachers of the course should have agricultural competency and teacher training. Students should meet MDTA selection criteria which include a less-than-\$1,200 annual net income. They should be over 20 years of age and should commit themselves to remain in the training program for one cycle of farm production. Time required for the course is 1,440 hours. This document is available in single copy only for \$2.00 from Vocational Curriculum Laboratory, Box 1114, Murfreesboro, Tennessee 37130. (JM)

BUSINESS AND OFFICE EDUCATION SECTION

A Guide -- Cooperative Business Education in Florida High Schools. (Bulletin 73H-4).

Florida State Dep of Educ, Tallahassee. Distr, Coop, Bus Jul65

DOCUMENT NOT AVAILABLE FROM EDRS 139p.

*COOPERATIVE EDUCATION, *BUSINESS EDUCATION, *OFFICE OCCUPATIONS EDUCATION, HIGH SCHOOLS, UNITS OF STUDY (SUBJECT FIELDS), PROGRAM COORDINATION, *ADMINISTRATOR GUIDES, EDUCATIONAL FACILITIES, *CURRICULUM GUIDES, PROGRAM DEVELOPMENT, RECORDS (FORMS), COORDINATORS,

Florida,

Some of the superior practices which characterize outstanding business education programs in Florida are described in order to assist teacher coordinators in organizing and conducting effective programs. Section I gives the purpose and objectives of the program and advantages to students, employers, and the school. Section II, Organization of a Cooperative Business Education Program, covers the selection and qualifications of a teacher-coordinator, the use of community and student surveys, the role of advisory committees, facilities and equipment, curriculum, and teacher and student schedules. Section III on Coordination Activities includes duties of the coordinator, selection of students and training agencies, visits, work evaluation, club participation, banquets, state leadership conferences, and a typical calendar of activities. Section IV, Related Study, outlines units of study designed to improve the work habits and development of the student in preparation for his role in the business world -- Orientation, Your Appearance -- Health, Grooming and Dress, Communication Services. Etiquette -- Social and Business, Parliamentary Procedure, Personality, Dictation and Transcription, Duplicating Processes, and Employer-Employee Relations. Section V gives examples of forms to be used for community and student surveys, student applications, visitation reports, and permanent records. Also included are job classification codes. (PS)

Business Education Curriculum Implications of the Effects of Technology on the Types of Office Machines Used by Selected Connecticut Businesses.

Clow, Cletus A.

Connecticut State Dep of Educ, Hartford. Div of Vocat Ed.

Central Connecticut State Coll., New Britain

Apr67

EDRS Price MF-\$0.09 HC-\$1.00 25p.

*OFFICE OCCUPATIONS EDUCATION, *SCHOOL SURVEYS, *CURRICULUM PLANNING, *OFFICE MACHINES, *BUSINESS, QUESTIONNAIRES, HIGH SCHOOLS,

Connecticut,

The purpose of the study was to ascertain the types of office machines used in selected businesses of Connecticut, the number of employees using this equipment, and the implications of this information for business education. Responses to questionnaires were received from 3,168 Connecticut businesses in the 17 labor market areas of Connecticut. They represented 59 different types of businesses. Responses were obtained from 124 public high schools in Connecticut which offered instruction in office machines. Findings indicated that -- (1) Twice as many businesses used the 10-key adding machine as the full-keyboard type, (2) Use of the rotary and printing calculator is increasing and use of the key-driven calculator is decreasing, (3) Many job opportunities exist for card punch, verifying, and transcribing machine operators, (5) Of the 1,434 businesses who use a type of office duplicator, 35 percent use the offset process, and (6) The programs in business education departments do not reflect these trends. *DATA PROCESSING, ELECTRONIC EQUIPMENT, BUSINESS EDUCATION, TECHNICAL EDUCATION, *CURRICULUM DEVELOPMENT, CURRICULUM PLANNING, *PROGRAMERS, *JOB ANALYSIS, EDUCATIONAL NEEDS, OCCUPATIONAL CLUSTERS, *OCCUPATIONAL INFORMATION,

Information is provided to help the States organize and operate programs under Title VIII of the National Defense Education Act of 1958. It explains how basic occupational information resulting from job analysis is used to determine relationships among jobs in electronic data processing, the technical knowledge required for successful job performance, and how such information is then used to establish the courses of study required to prepare students for a cluster of closely related jobs or for a specific job within a cluster. Historical background, the future of data processing, the fields of work, and the relationships between jobs are discussed. Job descriptions are included for the computing analyst, business data processing programer, and systems analyst. A Training Requirements Analysis Form illustrates method for recording knowledge and ability required for each occupation. Steps are given for curriculum construction in technical education with special requirements for post-high school technical curriculums. The appendix includes a list of business courses, data processing courses, mathematics courses, science courses, and a sample curriculum outline. Reference materials are listed. This document is available as GPO Number FS 5.280--80030 for 30 cents from Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. (PS)

Traffic and Transportation. (Business Technology).

North Carolina State Board of Education, Raleigh

01Feb66

EDRS Price MF-\$0.09 HC-\$0.56 14p.

*CURRICULUM, *BUSINESS EDUCATION, TRANSPORTATION, TECHNICAL EDUCATION,

The preemployment, 6-quarter curriculum is for use in technical institutes and community colleges. Its purpose is to provide training in new techniques and understanding of the latest State and Federal regulations applicable to traffic and transportation. Graduates of this curriculum may seek career opportunities as traffic representatives, claims representatives, dispatchers, rate analysts, and operational supervisors. The material was developed by a curriculum committee on traffic and transportation, evaluated by teachers, and revised. The teacher should have both a major and experience in transportation. Course descriptions for each quarter and possible electives are given. (PS)

UNITS OF STUDY (SUBJECT FIELDS), *TEACHING GUIDES, OFFICE OCCUPATIONS EDUCATION, CASHIERS, HIGH SCHOOLS, DISTRIBUTIVE EDUCATION, TRANSPARENCIES,

The unit is designed for teacher use in the high school office practice course to develop student attitudes, understandings, and skills necessary for entry into and advancement in the direct money handling and direct customer contact positions of checker, cask clerk, or cashier. The material was developed by a specialist in business and office education at the state level. Each lesson provides suggested content, teaching-learning activities, references, and supplementary instructional materials. Subject matter areas are -- (1) Character of cashier positions, (2) Human Relations, (3) Protective procedures and techniques of money handling, (4) Correct cash register procedures, and (5) Special problems associated with cash handling, checking, and customer relations. A minimum of 6 hours of instruction is required. (PS)

DOCUMENT NOT AVAILABLE FROM EDRS 151p.

*DISTRIBUTIVE EDUCATION, *COOPERATIVE EDUCATION, *CURRICULUM GUIDES, *ADMINISTRATOR GUIDES, GROUP INSTRUCTION, INDIVIDUAL INSTRUCTION, ORIENTATION, PUBLIC RELATIONS, RESOURCE MATERIALS, STUDENT PLACEMENT, HIGH SCHOOLS, COORDINATORS, *PROGRAM COORDINATION, UNITS OF STUDY (SUBJECT FIELDS), REPORTS (FORMS),

Florida, Distributive Education Clubs of America,

The handbook was prepared by a special workshop committee at the University of South Florida in June, 1951, to assist coordinators and administrators in establishing and operating successful programs in cooperative distributive education. Sections 1 and 2 give definitions, characteristics of employment in distribution, and an outline for the organization of the high school distributive education program. Section 3 deals with classroom activities -- group instruction, teaching methods, material sources, individualized instruction, and assignment sheets. Section 4 considers subjects specifically related to a student's work experience in the training agency -- standards for placement of students, examples of recommended and nonrecommended training stations, procedures and standards for training plans, evaluation of the training agency, advisory committees, and labor laws. Section 5 suggests methods and media for promoting, recruiting, and publicizing the program. Section 6 lists objectives and activities of the Distributive Education Clubs of America. The appendix includes a group instruction unit on orientation, an outline of group instruction topics, visual aids, survey forms, student rating sheets, layout of a distributive education laboratory, contest certificates, job and standard industrial classification codes, and professional reading suggestions. (PS)

*CURRICULUM GUIDES, *HEALTH OCCUPATIONS EDUCATION, DENTAL ASSISTANTS, DENTISTRY, POSTSECONDARY EDUCATION,

Basic information from bacteriology, anatomy and physiology, and oral and dental anatomy is presented for teacher use in developing lesson plans for post-high school training of dental assistants. The course outline was developed by a committee of teachers from locally developed course outlines and edited by a state curriculum consultant for health occupations. The objective of the course is to provide opportunities for the student to learn -- (1) principles of bacteriology in relation to oral hygiene, oral pathology, and dental practice, (2) the general structure and function of the human body and its major parts, (3) the structures of head and neck, development of the teeth, and the characteristics and structure of each tooth, and (4) methods of carving teeth as related to carving of inlays and crowns. The three instructional units are to be scheduled concurrently or sequentially during three class hours and three laboratory hours each week for one quarter. The teacher should be a certified dental assistant with work experience and an aptitude for teaching. This mimeographed document includes a bibliography of a suggested text and references. (HC)

Content is outlined for post-secondary, preemployment or upgrading courses to prepare child care workers to work in day care or child development centers, nursery schools, kindergartens, camps, etc. The development group consisted of a committee and subject matter specialists at the state level. Courses are The Nature and Scope of Day Care for Young Children, Health and Safety of Young Children, Creative Activities for Young Children, and Field Experience in Child Care Facilities. Suggested time allotment at the preemployment level is 330 hours. The teacher should be a specialist in child development with a background in home economics, psychology, pediatric nursing, or preschool education. The student should possess the basic skills needed to profit from the instruction and have an interest and personal qualities necessary for working with young children. The cooperating employer in the child care centers should be involved in the evaluation of all students. The appendix includes a listing of books, pamphlets, periodicals, and films. (MS)

21p.

Resource material for the development of training programs for supervised food service workers will need to be adapted to the needs of the students and the community. The supervised food service worker prepares and serves food, under the direction of the food service supervisor, in institutions such as hospitals, nursing homes, homes for the aged, and child care centers. Some purposes of the program are to prepare the trainee to (1) assist the head cook in institutions, (2) learn to prepare correctly all types of food for institutions, (3) follow good management practices in all phases of food work, (4) learn specific institutional food skills in preparation and serving to clients, and (5) learn sanitary practices in cleaning up after food preparation. The trainee should be able to read, write, and follow directions and be in good physical and mental health. The teacher should be a college graduate in Institutional Management, with successful experience both in teaching adults and in institutional food service. The course is suggested for 240 hours with five basic units. References and suggestions for planning and evaluating the experiences are included. Criteria are given for judging trainee readiness for employment. This document is available as GPO Number FS 5.287--87004 for 20 cents from Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. (MS)

*TEACHING GUIDES, PROGRAM DEVELOPMENT, POSTSECONDARY EDUCATION, *OCCUPATIONAL HOME ECONOMICS, *AGED, *COMPANIONS (OCCUPATION), *MDTA PROGRAMS,

Although resource material for the development of a program for training companions to elderly persons is provided in this teaching guide, it will need to be adapted to the needs of the trainees and the community. The Companion to an Elderly Person relieves family members or others responsible for the well-being of the elderly person. The program objectives include development of an understanding of common characteristics of older persons, increased competencies in caring for an elderly person, and qualities for successful employment. The course consists of four units to be presented in 150 hours. A trainee should be a high school graduate, healthy, mentally alert, with good sight, hearing, and ability to read and speak effectively. The teacher should be trained in home economics or social work and have an understanding of the needs of the elderly. References are listed with each unit, and suggestions are given for planning the lessons and learning experiences, evaluating achievement, and planning facilities. Criteria are included for judging trainee readiness for employment. This document is available as GPO Number FS 5.287--87006 for 20 cents from Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. (MS)

*OCCUPATIONAL HOME ECONOMICS, *TEACHING GUIDES, FOOD SERVICE, *MDTA PROGRAMS, ADULT VOCATIONAL EDUCATION, *FOODS INSTRUCTION, PROGRAM DEVELOPMENT, *COOKS,

The purpose of this guide is to provide resource material to develop a local 240-hour program for training a family dinner service specialist to prepare and serve dinners for employed people, retired persons, or families desiring such service. Program objectives include preparing trainees to plan menus and do family shopping for dinners, to plan and carry out work schedules, to prepare food using basic skills necessary for a variety of commonly cooked foods, to set tables and serve food correctly, to follow hygienic practices with food, and to use sanitary methods in taking care of dishes and the kitchen after a meal. Included are five subject matter units, with additional suggestions for planning the lessons and learning experiences and evaluating achievement. The teacher should be a home economics graduate who has had teaching experience, preferably with adults. The trainee should have had practical experience in home food preparation and be a high school graduate or equivalent. Criteria are listed for judging trainee readiness for employment, and references are included with each unit. Facilities must be well-equipped foods laboratories to provide practical experiences. This document is available as GPO Number FS 5.287--87007 for 20 cents from Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. (MS)

*CURRICULUM GUIDES, *HOME ECONOMICS EDUCATION, *FOOD SERVICE WORKERS, FOOD SERVICE, ADULT VOCATIONAL EDUCATION, MDTA PROGRAMS,

Material in this guide is for teacher use in training programs for food service workers. It was organized and written by a curriculum development specialist for Manpower Development Training (MDT) assisted by instructors in the field. The general objective is to develop abilities, understandings, attitudes, and interests needed for entry level employment and advancement. Major content areas are -- (1) Orientation and Safety, (2) Sanitation, Health, and Hygiene, (3) Types of Food Service, (4) Foods and Nutrition, and (5) Related Instruction. Units in each area are keyed to lecture, discussion, demonstration, practical application, and test methods of instruction. The guide is primarily for use in the MDT classes and students should meet MDT regulations. Of the 560 hours suggested for the course, 140 hours are devoted to basic and/or remedial education. The teacher should have occupational competency with teacher training. Suggested references including books, periodicals, agencies, filmstrips, pamphlets, and a glossary are included. This document is available for \$1.50 from Vocational Curriculum Laboratory, Box 1114, Murfreesboro, Tennessee 37130. (MS)

*STUDY GUIDES, *TRADE AND INDUSTRIAL EDUCATION, *WELDERS, *WELDING, HIGH SCHOOLS, *COOPERATIVE EDUCATION, STUDENT RECORDS,

The purpose of this guide is to provide direction for related study and a means for checking class and on-the-job progress of high school students in cooperative training programs. It was developed at the state level by a committee of trade and industrial coordinators. The contents include a 72-item trade analysis, safety regulations, a daily progress record, and study questions for each analysis item. The essay-type questions are keyed to five references. Units are General Information, Oxy-Acetylene Welding and Cutting, Arc Welding, and Tungsten Inert Gas Welding. The time required is 1 period per day for 2 years. The bibliography cites two supplementary references and two films. Answers (VT 001 652) are available for \$1.50. Both this guide and the answer key are available for \$3.25 from Trade and Industrial Education, Box 2847, University, Alabama 35486. (EM)

*TRADE AND INDUSTRIAL EDUCATION, *CURRICULUM GUIDES, *TECHNICAL EDUCATION, ELECTRONICS, CURRICULUM, *PROGRAM DEVELOPMENT, *ELECTRONIC TECHNICIANS, EDUCATIONAL FACILITIES, ORGANIZATIONS (GROUPS),

The purpose of this revised curriculum guide is to aid administrators, supervisors, and teachers to plan, develop, and evaluate programs. The basic materials were prepared by the Technical Institute Division of the Oklahoma State University pursuant to a U.S. Office of Education (USOE) contract. The final draft was prepared by USOE personnel. Technical accuracy was checked by nine engineers, industrialists, and educators. The contents include suggested course outlines, sequence of technical education procedure, laboratory layouts, lists of laboratory equipment and costs, suggested texts and references, a discussion of library facilities, and a selected list of scientific and technical societies. The course outlines include hours required, course description, major divisions (outline), texts and references, and visual aids. The appendix also contains examples of instructional materials and report writing standards. Instructors should be technically proficient and have industrial experience. Students should have one year of high school algebra, geometry, and physics as a prerequisite. The 1960 edition of this document is "Electronic Technology, A Suggested 2-Year Post High School Curriculum" (VT 000 596). The 1966 edition is available as GPO Number FS 5.280--80009A for \$1.00 from Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. (EM)

*STUDY GUIDES, *TRADE AND INDUSTRIAL EDUCATION, *AUTOMOBILE BODY REPAIRMEN, MOTOR VEHICLES, HIGH SCHOOLS, *COOPERATIVE EDUCATION,

This analysis of job training and related information in this course is for use by secondary or post-secondary students in a cooperative or preparatory trade and industrial program. It was designed by graduate research assistants in cooperation with trade teachers and an advisory committee. Twenty-one assignment sheets cover 157 units and present introductory information, assignment, references, and objective type questions which are keyed to a reference. Job training and related information are coordinated for each assignment. Some assignment sheet subjects are Power Tools and Equipment, Body and Frame Construction, Door Repair, and Refinishing Procedures. Information sheets present additional material on The Auto Body Repair Business, Hazards, Body Repair Procedures, and Job Management and Pricing. The 180 hours of related instruction should be supervised by a qualified coordinator or trade teacher. Progress records for use by the student, employer, and instructor and a bibliography of six references are included. Answers to assignment questions are available in VT 002 033. Answers and this guide are available for \$2.00 from Industrial Education, 103 Industrial Education Building, University of Missouri, Columbia, Missouri 65201. (EM)

*STUDY GUIDES, *TRADE AND INDUSTRIAL EDUCATION, *CLOTHING DESIGN, *PATTERNMAKING, HIGH SCHOOLS, NEEDLE TRADES,

Skills in patternmaking are important to all employed in the designing room in women's garment manufacture. The objective of this course of study is to acquaint the student with the tools and symbols of patternmaking and to help him master the basic fundamentals of pattern development. It follows the course of study approved by the Board of Education and was tested in various classrooms. Theory and principles are combined with practical and creative application in costume design. Units are -- (1) Introduction to Patternmaking and Design, (2) Slopers, (3) Waists, (4) Necklines, (5) Closings and Extensions, (6) Collars, (7) Sleeves, (8) Skirts, (9) Pockets, and (10) Belts. Each unit includes objectives, related information, assignments, and illustrations. The course requires three periods per week for 1½ years. Students should be of high school age with aptitudes and goals for the needle trades. The teacher should be a needle trades instructor. Included are objective and performance tests, illustrations, and a bibliography. This document is available for \$2.00 from Vocational-Technical Curriculum Laboratory, Rutgers University, 10 Seminary Place, New Brunswick, New Jersey 08903. (MS)

128p.

The purpose of this curriculum guide is to aid administrators, supervisors, and teachers plan, develop, and evaluate programs. Technical materials were prepared by the staff of the Technical Institute Division of the Oklahoma State University pursuant to a U.S. Office of Education (USOE) contract. Other portions were prepared by the staff of the Area Vocational Education Branch. USOE. Technical accuracy was checked by five electrical engineers. The curriculum is presented and discussed, and course outlines give -- (1) Hours Required, (2) Descriptions (course), (3) Major Divisions (outline), and (4) Texts and References. The appendix includes -- (1) examples of instructional materials, units, laboratory experiments, report writing standards, and reports, (2) floorplans, and (3) lists of equipment and supplies with costs. Instructors must have technical competence, industrial experience, and professional acumen. Students should have a good general education background with one or two years of mathematics and science. This document is available as GPO Number FS 5.280--80006 for 75 cents from Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. (EM)

The related instructional materials in this course of study are for use by secondary or post-secondary students in cooperative or in-service trade and industrial programs. The course of study was originally developed by a graduate student, field tested, and refined in cooperation with subject matter specialists and a consultant committee. The present revision, the fourth, was prepared by a research assistant. The major objectives deal with the mastery of skills, technical and related information, and personal-social traits which are essential to a successful worker. Each assignment sheet presents introductory paragraphs, assignments, references, and objective-type questions for one of the 21 subjects, some of which are Fundamental Principles of Electricity, Home Electrical Wiring, Electric Ironers, and Air Conditioner. Job units and related material are coordinated in 2-column form. The student should be at least a junior in high school with basic mechanical and electrical prerequisites. This guide serves as a basis for 180 hours of related instruction by a qualified coordinator or teacher of in-service programs. Progress report forms for the student, employer, and instructor are included. The answers to assignment questions are available in VT 002 048. An instructor's guide is available for 50 cents. Answers and this guide are available for \$1.50 from Industrial Education, 103 Industrial Education Building. University of Missouri, Columbia, Missouri 65201. (EM)

Drafting Technology, Design Technology,

The purpose of this tentative course of study is to serve as a guide for teacher development of a course or curriculum in technical education for grade 12 or post-secondary education. It was developed by research assistants with advisory committee consultation and had a 1-year field trial by selected teachers. The content objective is to prepare individuals to function in an employment situation. Major sections are -- (1) Prerequisite Technical Knowledge, (2) Textbooks and References, (3) Teaching Plan, which coordinates suggested activities, demonstrations, topics for class discussion, assignment, and instructional aids, (4) Assignment Sheets, (5) Organizing Testing and Evaluation Materials, (6) Instructional Aids for Drafting and Design Technology, (7) Catalogs, Pamphlets, Handbooks, and Engineering Data, (8) Films, (9) Materials and Supplies for Drafting and Design Technology, (10) Sources of Materials and Supplies, (11) Unit Examinations, and (12) Instructor's Guide. The course requires at least 360 hours of related instruction and laboratory practice. Students should have had basic drafting courses and the teacher should be competent in technical designing. Assignment sheets and unit tests can be duplicated. This document is available for \$2.00 from Industrial Education, 103 Industrial Education Building, University of Missouri, Columbia, Missouri 65201. (EM)

*STUDY GUIDES *COURSE OUTLINES, *MECHANICS (PRACTICAL), HIGH SCHOOLS, POSTSECONDARY EDUCATION, *TRADE AND INDUSTRIAL EDUCATION,

The purpose of this combination course of study and study guide is to provide material for job skills and procedures, technical information, and personal development. Use in grade 11 or above is recommended for cooperative or preparatory courses. It was originally written by a research assistant, revised by a research assistant in a university setting, with advice from an advisory committee and specialists, after extensive use. Course content is presented as "What the Workers Should Be Able to Do" and "What the Worker Should Know." Covered are such areas as (1) Small Gas Engines, (2) Chain Saw Sharpening, (3) Outboard Motors, (4) Bicycles, and (5) Duplication of Keys. Assignment sheets, tests, and information sheets comprise the study guide. Progress records for the instructor and employer are provided. Related instruction requires 180 clock hours. A qualified coordinator or competent general mechanics instructor is necessary. The students should be at least high school juniors with mechanical aptitude. Listed are 11 references, 17 sources of materials, and two publishers. An answer book (VT 002 082) is available. Reproduction of this $8\frac{1}{2}$ by 11 inch guide is by mimeograph. This document is available for \$1.50 from Industrial Education, 103 Industrial Education Building, University of Missouri, Columbia, Missouri 65201. (EM)

*CURRICULUM DEVELOPMENT, *JOB ANALYSIS, OCCUPATIONAL CLUSTERS, EDUCATIONAL NEEDS, CURRICULUM PLANNING, *OCCUPATIONAL INFORMATION, TECHNICAL EDUCATION, *CHEMICAL TECHNICIANS, *ENGINEERING TECHNICIANS, METALLURGY, CHEMISTRY,

The purpose of this publication is to help states organize and operate programs under Title VIII of the National Defense Education Act of 1958 for the training of chemical and metallurgical technicians. Suggested is a rationale for curriculum development which includes -- (1) identification of individual occupations, (2) analysis of job characteristics such as work performed, ability required, worker characteristics, tools, and materials, (3) clustering of occupations by common training requirements, and (4) construction of a curriculum based upon the requirements of the occupational cluster tempered by institutional considerations. Descriptions are given for 11 jobs in chemical and metallurgical technologies and include assistants, analysts, and technicians. A job factor comparison chart shows the chemical and metallurgical activities in each of the 11 occupations. A training requirements analysis form is included as a specimen of a method of determining curriculums for the two technologies. This document is available as GPO Number FS 5.280--80016 for 25 cents from Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. (JM)

*JOB ANALYSIS, *CURRICULUM DEVELOPMENT, TECHNICAL EDUCATION, OCCUPATIONAL CLUSTERS, *OCCUPATIONAL INFORMATION, TRADE AND INDUSTRIAL EDUCATION, CURRICULUM PLANNING, ADULT VOCATIONAL EDUCATION, *ELECTRONIC TECHNICIANS, ELECTRONICS, ELECTRICITY, EDUCATIONAL NEEDS,

The purpose of this report is to help the States organize and operate programs under Title VIII of the National Defense Education Act. P.L. 85-864. The basic occupational information resulting from up-to-date job analysis studies is used to determine relationships between jobs and to identify the skills and abilities required for successful job performance in the electrical and electronic technician occupations. This information can be used to establish a well-balanced and integrated course of study to prepare students for a cluster of closely related jobs or for a specific occupation within the cluster. Topics included are -- (1) The Fields of Work, (2) Job Relationships, (3) Job Descriptions, (4) Training Requirements, and (5) Developing the Curriculum. A Training Requirements Analysis Form illustrates the method for recording knowledge and ability required for each occupation. A list of reference materials for determining job descriptions and job relationships is provided. This document is available as GPO Number FS 5.280--80004 for 30 cents from Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. (HC)

*TRADE AND INDUSTRIAL EDUCATION, *SEWING MACHINE OPERATORS, SPECIAL EDUCATION, *DEAF EDUCATION, *SEWING INSTRUCTION, *STUDY. GUIDES,

Although the primary purpose of this study guide is to provide a text in power sewing for deaf pupils, it can also be used for students with reading or learning difficulties. Developed by an instructor with faculty help, the text follows a course of study approved by the Board of Education and has been tested in various classrooms. Units are -- (1) Let Us Learn About the Power Sewing Machine, (2) The Single-Needle Lockstitch Machine, (3) Primary Sewing Operations, (4) Single Needle Sewing Projects, (5) The Zig-Zag Machine, (6) The Two-Needle Lockstitch Machine, (7) Special Machines, and (8) Miscellaneous. The text is illustrated with cartoons and drawings, and the instructions and information are in simple language. Terms or new words are defined and written phonetically for ease in pronunciation. Most tests are of practical nature, asking the students to perform what they have learned. Safety is emphasized, and the development of basic skills is stressed for this course which is recommended for 10 - 15 periods per week for 1 year. The teacher should be certified in the needle trades. The students are selected from among those who are deaf or have reading or language difficulties. A power sewing shop would be required. This document is available for \$2.00 from Vocational-Technical Curriculum Laboratory, Rutgers University, 10 Seminary Place, New Brunswick, New Jersey 08903. (MS)

*COORDINATORS, *TRADE AND INDUSTRIAL EDUCATION, HIGH SCHOOLS, *COOPERATIVE EDUCATION, *PROGRAM GUIDES, PROGRAM DEVELOPMENT, TEACHING TECHNIQUES, EVALUATION TECHNIQUES, RECORDS (FORMS), EMPLOYERS, STUDENT EVALUATION, STUDENT PLACEMENT,

As a source of technical information, this handbook is to be used by professionally educated local coordinators in the development and operation of programs in secondary schools. The original material was developed in 1948 by 25 coordinators. It was revised by trade and industrial education teacher trainers, coordinators, and state supervisory personnel in 1954 and 1958. Section one includes a summary of Mississippi State Plan, report forms, legal material, and other information necessary for the administration and operation of the programs. The areas of responsibilities and duties of the coordinator as they relate to the student, employer, school administrator, parents, and the community are discussed. Section two contains methods and techniques for conducting classes in directly and indirectly related subjects, for correlating class instruction with job experiences, and for evaluating the student and the program. Information on securing and using reference materials, supplies, and instructional aids, and suggestions for the selection and layout of the necessary physical facilities are given. The document is mimeographed. This document is available for \$4.00 from Curriculum Laboratory, Box NU, State College, Mississippi 39762. (HC)

Question-type job sheets in this guide direct related study for students in 2-year cooperative training programs for meat cutting and merchandising. The guide was developed by trade and industrial coordinators, subject matter specialists, and teacher educators and was tested by use in high school programs. Instructional areas are -- (1) Cutting Pork, (2) Cutting Lamb and Mutton, (3) Cutting Beef, (4) Cutting Veal, (5) Smoked Meats, (6) Sausage, (7) Poultry, and (8) Merchandising. The job sheets are keyed to selected references and provide space for recording completed laboratory performance and related readings. Trade analysis progress record forms are provided for teacher and student use in recording job performance and reference readings. The material was developed for students in grades 10, 11, and 12 in area vocational or comprehensive high schools. This mimeographed document includes a bibliography of correlated references and supplementary bulletins. This document is available for \$1.25 from Trade and Industrial Education, Box 2847, University, Alabama 35486. An answer book (VT 003 107) is available from the same source for 75 cents. (HC)

*CURRICULUM GUIDES, *TRADE AND INDUSTRIAL EDUCATION, *AUTOMOBILE MECHANICS (OCCUPATION), *MOTOR VEHICLES, ADULT VOCATIONAL EDUCATION, *MOTA PROGRAMS.

The course outline in this guide is for teacher use in entry level instruction in (1) troubleshooting, (2) repair, (3) replacement of parts, unit assemblies, and circuits, (4) disassembly and assembly, and (5) use of floor tools, test equipment, and machines, with emphasis on safety. The material was developed by trade and industrial education instructors and organized by a technical writer for training auto mechanics in Manpower Development and Training programs. The sections of instruction are -- (1) Introduction which includes Orientation, Safety, and Survey of Shop and Equipment, (2) Tools, Tool Room, and Miscellaneous Parts, (3) The Automobile Chassis, (4) Automotive Electricity and Electric Service, (5) The Engine and Associated Systems, (6) The Power Train (Drive Train), (7) Wheels, Tires, and Brakes, (8) The Automotive Body, (9) Automobile Accessories, (10) General Lubrication, and (11) Related Math. The sections are divided into units which contain the objectives and instructional outlines. Each unit is keyed to lecture, discussion, demonstration, practical application, and test methods of instruction. The course was developed for 1,440 hours of instruction with 360 hours devoted to pre-vocational and remedial education. The time allotment and sequence of the sections and units may vary according to trainee ability. The teacher should be a skilled auto mechanic with teacher training. The appendixes are Suggested Tool List and General Review of Course (Test). Suggested references, films, bulletins, and resource programs are included. Single copies are available for \$3.00 from Vocational Curriculum Laboratory, Box 1114, Murfreesboro, Tennessee 37130. (HC)

*STUDY GUIDES, *TRADE AND INDUSTRIAL EDUCATION, *SMALL ENGINE MECHANICS, *ENGINES, POSTSECONDARY EDUCATION,

The basic fundamentals of small engine repair are presented in this study guide designed for trade school preparatory programs. The materials were developed by an individual author and tested in shop programs. Units of instruction include (1) Basic Repair Skills, (2) Engine Fundamentals, (3) Fue! Systems, (4) Magneto Ignition, (5) Starting Systems, and (6) Engine Overhaul. Related study assignments within each unit provide background information, instructional material with illustrations, related study references, and reference study questions. Tests to follow each assignment are available. Job experiences are directed by job sheets which include an introduction to the job, references, a list of tools and materials, job procedures, precautions, and questions for reviewing the job performed. Related mathematics instruction and problem sheets are provided as needed. The course was designed for post-secondary students who are seeking employment as small engine mechanics. The instructor should be skilled in small engine repair. Required textbooks are listed in the bibliography. Fundamentals for the repair of equipment using small engines is presented in "Small Engines Mechanics, Units VII-XIII" (VT 003 159). Unit tests for both volumes are given in "Small Engines Mechanics, Units I-XIII, Tests" (VT 003 157). Answers for the unit tests are given in VT 003 158. The study guide is available in single copy only for \$2.00 from Vocational Curriculum Development and Research Center, P.O. Box 657, Natchitoches, Louisiana 71457. (HC)

Handbook for Diversified Cooperative Training.

Lowman, C. L.

Florida State Dept. of Education, Tallahassee Bull-74H-3

Jun63

EDRS Price MF-\$0.27 HC-\$5.20 130p.

*COOPERATIVE EDUCATION, SENIOR HIGH SCHOOLS, CURRICULUM, LEGAL PROBLEMS, PUBLIC RELATIONS, CLUBS, *ADMINISTRATOR GUIDES, PROGRAM PLANNING, *PROGRAM ADMINISTRATION, *VOCATIONAL EDUCATION, EMPLOYERS, RECORDS (FORMS), COORDINATORS,

Florida,

This handbook was written to aid the school administrator and coordinator in establishing and operating a Diversified Cooperative Training (DCT) program. The DCT program involves the training of high school students in three general occupational groups -- trade and industrial, distributive, and office occupations. If specialized programs in cooperative distributive education and cooperative business education are operated within a school, all students training in marketing or merchandising goods or services should be enrolled in the distributive education program and students training in office occupations should be enrolled in cooperative business education instead of the DCT program. DCT is an integral part of the high school curriculum, utilizing the business and industrial establishments of the commmunity as training agencies. Included in this guide are (1) factors and steps to be taken in establishing a program, (2) legal responsibilities involved in operating a program, (3) the school's responsibility, (4) responsibilities of the employer, (5) securing and maintaining good public relations, and (6) club activities. The appendix includes sample forms, sample outline of general related study, the constitution of the Cooperative Education Clubs of Florida, the constitution and by-laws of the Cooperative Education Association of Florida, and job classification codes for cooperative education programs. (PS)
